

## Job Opening-Breeding Specialist I-RTP

Alpha Omega Bioservices at NIEHS

Alpha Omega Bioservices is committed to providing the very highest quality of animal care and customer service. We are currently seeking a qualified candidate who shares that commitment to act as a Breeding Specialist I.

Primary responsibilities include, but are not limited to: the oversight of in-house production, transgenic, and isolator breeding colonies; coordination and oversight of technicians providing breeding support; meeting with investigators to assist with start up and maintenance of colonies; working closely with investigators using transgenic animals to obtain optimal breeding efficiency for scientific studies. Strong communication skills, both written and verbal are a must.

The selected candidate must be certified with AALAS at the LATg level or attain LATg certification within six months of hire. Possession of a Bachelor's Degree of Science in a related area is preferred. Candidate must have the ability to lift 50 pounds. Weekend work is required on a rotating basis.

Salary is commensurate with experience. Alpha Omega Bioservices offers a very competitive benefits package.
